-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. The examiner acknowledges the receipt of argument filed May 10, 2006. Claims 1, 5-23, 26-31, 40, 43-52, 55-57 are pending.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Art Unit: 1713

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 40, 43-52, 55-57 are rejected under 35 U.S.C. 102(e) as anticipated by Martin et al. (US 6,787,597) for the reasons adequately set forth from paragraph 5 of non-final office action of February 7, 2006.

Applicant's arguments filed May 10, 2006 have been fully considered but they are not persuasive. Applicants argue that Martin et al. are silent on a copolymer comprising pendant carbamate groups. The examiner disagrees because Martin et al. (col. 6, line 35-37) clearly disclose copolymerizing the acrylic monomers with a carbamate functional vinyl monomer which would result in pendant carbamate groups onto the disclosed copolymers of Martin et al.

4. Claims 1, 5-23, 26-31 are rejected under 35 U.S.C. 102(e) as anticipated by Martin et al. (US 6,787,597) for the reasons adequately set forth from paragraph 6 of non-final office action of February 7, 2006.

Applicant's arguments filed May 10, 2006 have been fully considered but they are not persuasive. Applicants argue that Martin et al. are silent on a copolymer comprising pendant carbamate groups. functional vinyl monomer which would result in pendant carbamate groups onto the disclosed copolymers of Martin et al. Further, Martin et al. (col. 27, line 21; col. 29, table; col. 31, table) clearly disclose a copolymer comprising monohydric alcohol. Martin et al. (col. 9, line 5-20) also disclose a composition comprising aldehydes. In view of substantially identical composition of Martin et al. and the composition as claimed, applicants do not have any basis to argue that the monohydric alcohol of Martin et al. is only used as solvent.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
